

ORDER FORM VALID ONLY FOR PROFESSORS AND CLASSROOMS TO FILL  
FOR A FREE DEMO COPY OF THE SAFIR SOFTWARE.

First name: \_\_\_\_\_  
Surname: \_\_\_\_\_  
E-mail: \_\_\_\_\_  
Name of the Course/Program: \_\_\_\_\_  
University: \_\_\_\_\_  
Country: \_\_\_\_\_

I wish to obtain from the University of Liege a free demonstration copy of the software SAFIR. I fully understand and agree with the following:

1. The “identity.key” file associated to this license can be used by the teacher and all students in the class under the responsibility of the teacher.

2. The utilisation of this copy is not for commercial applications, i.e. not for applications that generate a financial income (tuition fees are not considered as financial income here). It is for evaluation, for demonstration purpose or for education purpose in the field of response of structures to fire.

3. Any reference to SAFIR in the material course must contain the following text: "... with the non linear software SAFIR developed at Liege University and Johns Hopkins University [1-2]."

[1] Franssen, J.M. (2005), “SAFIR: A thermal-structural program for modelling structures under fire”, *Engineering Journal*, 143–158.

[2] Franssen, J.M., Gernay, T. (2017), “Modeling structures in fire with SAFIR®: Theoretical background and capabilities”, *Journal of Structural Fire Engineering*, 8(3).

4. The University does not make any warranties with respect to any results obtained using SAFIR and will not be liable for any damage, direct or indirect, secondary or accessory (including damages caused by the loss of profits, the interruption of activity or the loss of information, ...) resulting from the use of SAFIR, or from the failure of SAFIR to provide results, for whatever reason.

5. This copy is made of an executable file and a registration file. It is not allowed to concede, give, sell or rent to third parties any of these two files. It is not allowed to "uncompile" the executable file.

6. In case of any litigation, the case will be treated by the court of the city of Liege. The compensation for any financial income made in violation of clauses 1 or 2 should not be less that 50% of the total financial income made with the utilisation of this copy, either by the direct beneficiary of this copy or by any third party.

I agree that the SAFIR team uses the data above in the following way:

“SAFIR is used in the program of [*Name of the Program*] at [*University*] in [*country*]”

- On the SAFIR webpage YES[ ] NO[ ]
- In the SAFIR Newsletter YES[ ] NO[ ]
